

GUYS GET UP

partizan hymn

Guys get up to take on the streets
women and men with arms on the shoulders
always faithful on the red flag
on the side of the trumpet that invites us
always faithful on the red flag
on the side of the trumpet that invites us

Throw completely palaces and thrones
heavy chains, masters and laws
shame on the worker shame on the slave
who will not drown in blood such a life
shame on the worker shame on the slave
who will not drown in blood such a life

Let us smash tyrants and fascists
to become builders of the New Greece
shame on the young man who is not thrown to the battle
for Laocracy, the honest life
shame on the young man who is not thrown to the battle
for Laocracy, the honest life

Greece and Cyprus are deeply honored
roads and plains are stained with blood
they send us messages they send us screams
Go revolutionaries for brilliant victories
they send us messages they send us screams
Go revolutionaries Go communists

GIRLS GET UP

the faggot people

Girls get up to take on the streets
butches and faggots with arms on the shoulders
always faithful on the pink-black flag
for us to become the nation's shame
always faithful on the pink-black flag
for us to become the nation's shame

Throw completely Patriarchy
The machos and the dudes inside the cafes
shame on the sex-worker shame on the slave
who will not drown in blood such a life
shame on the sex-worker shame on the slave
who will not drown in blood such a life

Let us smash some straight assholes
in Butler, in Sedgwick let's raise columns
shame on the anarchist who is not thrown to the battle
for Anomaly and a dishonorable life
shame on the anarchist who is not thrown to the battle
for Anomaly and a dishonorable life

Greece and Cyprus are all a lie
for years and years they suck on our blood
We are getting bashed by fascists and nationalists
but also by revolutionaries and communists
We are getting bashed by fascists and nationalists
but also by revolutionaries and communists
